ANNUAL PRODUCTION
Processing of 5,000
tonnes of material
each year

120
countries

WORLDWIDE LOCATIONS
Recognised expertise in
more than 120 countries

TECHNOLOGIES & PROCESSES

Continuous investment in equipment and people

Design

- Over 30 designs proposed each year
- 3D printing of your designs
- Prototype moulds produced in-house

Development

- New products, Integration/Transfer
- Mould qualification
- 40 specialised machines
- A dedicated development team
- Project managers, developers and metrologists

Production

- Plastic injection moulding
- Plastic extrusion
- Laser cutting and welding of stainless steel
- Manual or automated assembly of plastic materials and stainless steel components
- Production of latex and silicone balloons

EXPERTISE & KNOW-HOW

Complete control, from design to production

Packaging

- Flowpack bag
- Individual pack
- Case, Tray, Folder
- Blister packaging
- Welded bag
- Bulk in big bag
- Reusable plastic box

Sterilisation

- ETO
- Expertise and Qualifications in Gamma Irradiation

Marking

- Labelling
- Screen printing
- Offset
- Laser
- Pad printing
- Hot stamping
- Digital (Numeric)
- With vision control in process

PRODUCTS & MARKETS

100% Human and Animal Health

Human Health

PHARMACEUTICAL

- Pipettes, dosing syringes, spoons, measuring cups and spoons, beakers
- Primary & secondary pharmaceutical packaging
- Vaginal syringes, single dose tube, spatula and others applicators
- Nebulizer, nasal spray, atomizer, inhaler
