FLUOROPOLYMER INSULATED WIRES

SILIFLON® 150°C & 250°C

Fluoropolymer insulation UL & cUL approval

VW-1 c UL us

1 • Bare, tin-plated, nickel-plated or silver-plated copper core
2 • Insulation: Fluorinated polymer

Approvals - standards

- UL approval as per standard UL 758 - File no.: E101965
- cUL approval (CSA) as per standard C22.2 No. 210 - File no.: E101965
- "Horizontal flame test" as per UL approval
- "FT1 flame rating" as per cUL approval
- "VW-1 flame test" as per UL approval

Characteristics

General

- Continuous operating temperatures: -90°C to +150°C, +200°C or +250°C (as per style no.)
- Excellent resistance to aggressive chemical environments
- Excellent resistance to humidity and UV
- Excellent mechanical strength

Electrical

- Rated voltage: as per style no.
- Test voltage: 10 x Rated voltage

Standard products

- All colours including two-coloured
- Stranding of conducting cores: contact us

SILICABLE® 150°C & 200°C

Silicone insulation UL & cUL approval

VW-1 c UL us

1 • Bare, tin-plated, nickel-plated or silver-plated copper core
2 • Insulation: Silicone rubber

Approvals - standards

• UL approval as per standard UL 758 - File no.: E101965
• cUL approval as per standard C22.2 No. 210 - File no.: E101965 (except for style no. 3132)
• "Horizontal flame test" as per UL approval
• "FT2 flame rating" as per cUL approval
• "FT1 flame rating" as per cUL approval
• "VW-1 flame test" as per UL approval

Characteristics

General

• Continuous operating temperatures: -60°C to +150°C, +200°C (as per style no.)
• Good resistance to thermal shock and UV
• Halogen free (IEC 60754-1)

Electrical

• Rated voltage: as per style no.
• Test voltage: 10 x Rated voltage

Standard products

• Stranding of conducting cores: contact us
• Up to 120 mm²: all colours including two-coloured.
• From 150 mm² to 400 mm²: all colours except two-coloured.

Option

• CSA approval as per standard C22.2 No. 210 - File no.: LL84986 (only for style no. 3132) : contact us

SILICONE INSULATED WIRES WITH REINFORCING BRAID

SILICABLE® 200°C

Silicone insulation with fiberglass braid UL approval

VW-1

1 • Bare, tin-plated, nickel-plated or silver-plated copper core
2 • Insulation: Silicone rubber
3 • Coated fibreglass braid

Approvals - standards

• UL approval as per standard UL 758 - File no.: E101965
• "Horizontal flame test" as per UL approval
• "VW-1 flame test" as per UL approval

Characteristics

General

• Continuous operating temperatures: -60°C to +200°C
• Good resistance to thermal shock and UV
• Halogen free (IEC 60754-1)

Electrical

• Rated voltage: as per style no.
• Test voltage: 10 x Rated voltage

Standard products

• Stranding of conducting cores: contact us
• All colours with or without coloured spiral stripe

Option

• CSA approval as per standard C22.2 No. 210 - File no.: LL84986: contact us

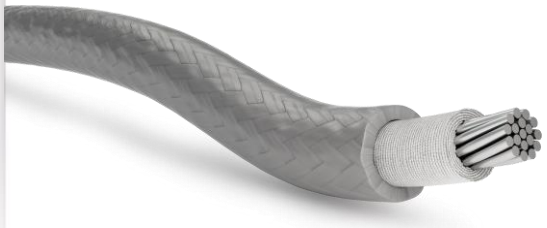
WIRES WITH COMPOSITE INSULATION

SILICABLE® 350°C

Composite insulation
UL & cUL approval

VW-1 c UL us



1 • Nickel or nickel-plated copper core
2 • • Composite insulation: Mica tape(s) and fibreglass lapping + varnished fibreglass braid

Approvals - standards

- UL approval as per standard UL 758 - File no.: E101965
- cUL approval (CSA) as per standard C22.2 No. 210 - File no.: E101965
- "Horizontal flame test" as per UL approval
- "FT1 flame rating" as per cUL approval
- "VW-1 flame test" as per UL approval

Characteristics

General

- Maximum continuous operating temperature: +350 °C
- Good resistance to thermal shocks and oxidization

Electrical

- Rated voltage: as per style no.
- Test voltage: 10 x Rated voltage

Standard products

- Standard colours: grey, brown or natural. (other colours: contact us)
- Stranding of conducting cores: contact us

SILICONE SHEATED CABLES

SILICABLE® 150°C & 200°C

Silicone sheating UL & cUL approval

VW-1 c UL us

1 • UL and cUL approved conductors with a silicone or fluoropolymer insulation (see table below for more information).
2 • Outer sheath: Silicone rubber.

Approvals - standards

- UL approval as per standard UL 758 - File no.: E101965
- cUL approval (CSA) as per standard C22.2 No. 210 - File no.: E101965 (LL84986)
- "Horizontal flame test" as per UL approval
- "FT1 flame rating" as per cUL approval
- "FT2 flame rating" as per cUL approval
- "VW-1 flame test" as per UL approval

Characteristics

General

- Continuous operating temperatures: -60°C to +150°C, +200°C (as per style no.)
- Good resistance to thermal shock and UV

Electrical

- Rated voltage: 600 V
- Test voltage: 6 000 V

Standard products

- Standard outer sheath colours: black with or without coloured spiral stripe
- Stranding of conducting cores: contact us

	Conducting metals	BCDEFG		B*CDEF*G		B*CDEF*G		B*CDEF*G	

KEY

Conducting metals

B Tin-plated copper
B* Tin-plated copper (ø > 0.38 mm)
C Nickel-plated copper
D Silver-plated copper
E Nickel
F Bare copper
F* Bare copper (ø > 0.38 mm)
G Nickel-plated copper 27 %

AWM II A/B : External or Internal wiring

**The diameter is provided for information purposes as it may vary depending on the stranding of the core. Only the average thickness of insulation should be taken into account*
