Description EPDM rubber extruded tube,

stainless steel wire braid, polyvinyl chloride sheath

Applications

Pressurised transport of compressed air

Fields

Maintenance, control, process, instrumentation

General characteristics

Good resistance to oils and gases

 Very flexible
 Smooth external surface
 Resistance to pressure

Technical data

Temperature of use: -20 to +70°C
 AISI 304 stainless steel braid
 Sheath: PLASTUB® GS crystal
 Recommended connection:
 nipple with lug clamp or band clamp

Options (contact us)
